

DRAFT

**MPOFANA MUNICIPALITY**

**SERVICE DELIVERY AND BUDGET IMPLEMENTATION PLAN**

**2011/2012**

## 1. Introduction

All municipalities are required in terms of the Municipal Finance Management Act to prepare the Service Delivery and Budget Implementation Plan. The SDBIP is intended to give effect to the Integrated Development Plan and the budget.

### 1.1 Legislative Framework

- ❖ The Municipal Systems Act 32 of 2000 requires all municipalities to adopt an Integrated Development Plan that identifies developmental priorities and align municipal resources and capacity with the implementation plan. The Integrated Development Plan among other things captures the vision, strategic objectives, key performance indicators, strategies and the financial plan.
- ❖ The Municipal Finance Management Act no 56 of 2003 places an obligation on municipalities to prepare an annual budget which sets out indicative revenue per source and projected expenditure by vote.
- ❖ In terms of sec 53(1)©(ii) and 69(3)(a) of the Municipal Finance Management Act no 56 of 2003, municipalities are required to prepare the Service Delivery and Budget Implementation Plan. The Act defines the plan as a detailed plan approved by the mayor of a municipality for implementing the municipality's delivery of services and its annual budget, and which must indicate:
  - a) Projections for each month of –
    - i. Revenue to be collected, by source; and
    - ii. Operational and capital expenditure, by vote
  - b) Service delivery targets and performance indicators for each quarter;
  - c) Any other matter that may be prescribed and includes any revisions of such plan by the mayor in terms of section 54(1) ©.

## **1.2 Overview**

The Integrated Development Plan serves as a vital instrument to express the developmental objectives and priorities of the municipality. It identifies the strategic issues that need to be addressed by the municipality to fulfill the developmental mandate as pronounced in the constitution of the Republic of South Africa.

The Mpofana municipality's mission is to be a pro-active, democratic and accountable municipality committed to social and economic development, provision of efficient, affordable, sustainable and customer-oriented services to its community whilst striving to sustain financial viability. In trying to pursue this mission, the municipality has set itself a vision that integrates and captures all the strategic intent aimed at achieving the aspirations of its community ; "By the year 2020, Mpofana will be a sustainable, socially, and economically developed municipality, that encourages community participation and whose residents live in a safe and healthy environment. Mpofana will, in addition have substantially increased its district's gross geographic product whilst also having realized substantially decreased its share of poverty related indices."

## **2. Background to the Budget Preparation Process**

Mpofana municipality has prepared its budget in accordance with the provisions of chapter 4 of the Municipal Finance Management Act 56 of 2003. The budget focuses on priorities identified in the Integrated Development Plan. It therefore gives effect to strategic priorities of the municipality. The powers and functions assigned to the municipality serve as a guide in the process of developing the municipal budget.

The schedule of key deadlines was tabled on 29 September following the adoption by council of the draft IDP review. The tabling of the Draft budget at Council on the 26 March 2010 was followed by extensive publication of the budget, inviting comments from all municipal stakeholders. Various public and

community consultative meetings were scheduled to receive representations and submissions from ward committees, residents, community organizations, organized business and other stakeholder formations. The first phase of the community participation process which involved ward committees, commenced in October 2009 culminating to the approval of the budget in 31 May 2010.

An adjustment budget was adopted by Council on the 24<sup>th</sup> of January 2011 and this necessitated revised SDBIP as tabled on the 25 February 2011.

## Monthly projections of Revenue by Source
